

Wonderworks Pre-College Summer Programs

Athletes, musicians, dancers- anyone who has to perform at a high level year in and year out - make a point of staying in training during the offseason. The same goes for academic endeavors - if you don't do something to keep the rust off, studies show you'll actually lose ground over the summer. If you value learning for its own sake and want to keep your momentum going en route to college, Wonderworks or something like it should be part of your summer. Wonderworks at the University of Houston and Rice University is more than just a change of venue- it's fresher, more relaxed, and far more challenging than school as you probably know it. In fact, it's almost like being in college but with the luxury of pursuing a single area of interest intensively. And since it's only five weeks out of three months, you'll still have plenty of time left to chill, travel, save the world, or whatever else comes next.
